Walcott

Sept. 25, 1953

Dear Mrs. Truitt,

I'm very sorry to have been so slow to reply to your inquirey about your proposed hours of service to accommodate the school children, but frankly, I was a bit confused by your note. That, however, is not the reason for my delay in answering - I've been on the road a good deal, and snowed under when I wasn't! We're short one person and breaking in another - need I say more?!

I assumed that you were opening at 2 and staying open until 5. That's the way I've sent in your time for all of September - 3 hours on Friday and 2, on Tuesday.

I hope after October 1 to be able to get around to the stations once in a while myself. I'm going to have additional help then so things should get straightened out after awhile. Your circ. is certainly picking up with the opening of school, isn't it? Is Mrs. Kresse finding the things she wants? She was in here during the summer to see about certain titles for Walcott. She's to request them thru you when she wants them if she doesn't find what she needs there. And will you ask her, please, which set of pictures it was that she wanted with that new viewer we're about to reveal to the county!

Sincerely,

Elizabeth B. Hage
Librarian
